

FLOATING POOL PLATFORM

Unique design focuses student attention on the instructor and eliminates wandering during instructional period. Floating deck maintains a constant depth of 28 or 18 inches below the surface so lessons can be given in any depth for maximum space utilization. Platforms are proven to increase student ability to learn.

Easily launched and removed from the pool by one person. Drain holes allow frame to drain quickly while being removed from pool. Floats are removable and rails fold down for stack storage.

- Lessons can be given in any depth for maximum space utilization
- Strong yet light weight and constructed of a space age plastic
- All plastic frame eliminates rust
- Eliminate cumbersome person flotation devices making lessons more effective because young students experience their own buoyancy
- Floating platform eliminates liner damage or bottom scratching
- Students feel safe and comfortable with hand rails and solid footing.

Floating Pool Platform	ICCFPP
Overall Length	89"
Deck Dimensions	89" x 22"
Hand Rails	33" above deck floor
Float Mounts	31.5" & 19.5" above deck floor

MATERIAL:

Tubing & Fittings: Georgia Gulf #7140 special purpose rigid PVC compound
